PRO-LIBERTY: This bill protects the privacy of students and families.

**YEA on
OTP/A**

- This compromise legislation requires parental consent for all non-academic surveys, except the.
- youth risk behavior survey developed by the Centers for Disease Control and Prevention.
- The fact that some students may benefit from social programs does not justify ignoring privacy.
- concerns and parents' right to direct their under-age children's education.
- There is a demonstrated need for this bill. Evidence was provided at the public hearing, showing.
- that some existing surveys are neither anonymous nor optional.

SB 330-FN, (New Title) relative to licensure of medical imaging professionals and radiation therapists.

- Increases minimum fine on ALL drug offenses to \$500 from \$350.
- Removes access to a public defender when the charge is reduced from Class A misdemeanor.
- Increased fine also increases penalty assessment.
- Mandatory minimum charges do not allow judges to apply a more appropriate penalty.
- Downshifting cost to counties for those whom may need to serve time at county jail when unable to pay the fine.
- Discriminates and is regressive as those with resources will be able to properly defend themselves.
